

Hog Roasts

This is where Mr. Pig Stuff began, with a smoker and a hog. Denny began roasting hogs in the late 80's, and now the McCormick family has a skilled team of 'roast - masters' who make sure that each hog is a tender, juicy, succulent masterpiece.

All our hogs are locally sourced and hand-picked from farms throughout the area. Fresh and never frozen, each hog is roasted between 18-30 hours. We use apple wood while roasting our hogs and maintain a 'low and slow' philosophy throughout.

We begin the process of roasting the hog at our catering kitchen but then bring the hog to you with one of our towable rosters to finish the process in front of your guests. We'll pull the hog off and carve it immediately before serving.

After carving the hog our crew will 'man' the buffet line they've set up with our using our stainless-steel chafing dishes and serving utensils. They'll make sure everything stays full and hot throughout the serving, including your choice of our homemade sides and any additional meats you may desire, which accompany the hog perfectly...

Pricing

Price listed is the per-person price.

Prices do not include sales tax, on-site event fees, or delivery fees.
